FIRE EXTINGUISHERS

Powder extinguisher supplied with wall-mounting bracket!

Only approved for Belgium!

REF **107TA8110**

(Old: 73/24741-1)

1 kg

- Furnace class
- In function of the furnace, we use one or more designated fire extinguishers. The following badges that are located on the fire extinguishers denote the class it is suitable for.

Class A: wood, paper, textile, carton. These are fires with brand formation, also called 'dry fires'.

- Use fire extinguisher:
 - with universal ABC powder

Class B: liquid fires (alcohol, oil, grease, paint, hydrocarburates)

- Use fire extinguisher:
 - with universal ABC powder

Class C: gas fires (gas, methane, butane, propane ...)

- Use fire extinguisher:
 - with universal ABC powder

EMERGENCY HAMMER

REF **107TA5228**

- To put inside the cabin
- Emergency hammer with seat-belt cutting blade incl. bracket
- Tip: toughened metal

ERGONOMIC FLOOR MAT

REF 107TA5215

- Special ergonomic floor mat
- Dimensions: 600 x 900 x 15 mm

Advantages:

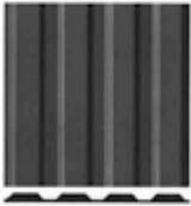

- Increased antiskid safety
- Reduction of risk of cramp and circulatory problems
- Reduction of muscular activity
- Delay in the onset of tiredness, resulting in an improved work environment
- Shock absorbing
- Increased productivity

Specifications:

- Usage: suitable for dry areas
- Material: charcoal grey polyurethane
- Maximum height: 15 mm
- Bevelled edges
- Elasticity: unusually high, among the very best on the market
- Durability: unbeatable
- 5-year warranty applies if used in dry areas

REF 107TA5218 – 750 ml

- Universal, liquid contact adhesive for general use
- Ready to use
- Temperature-resistant (min up to 100 °C)

PADLOCKS

Characteristics:

The padlock is made of high-quality materials and has a good resistance against extreme elements and weather conditions. It is equipped with a cylinder with a paracentric profile and pins that offer protection against lock picking.

Available in different widths with shackle in hardened steel in different heights.

Advantages:

- Cylinder with pins
- Hardened shackle
- Key with paracentric profile

COMBINATION LOCK WITH RESETTABLE CODE

REF **142TA7051**

Technology:

- Solid zinc die-cast body
- Double-bolted shackle
- Shackle made from hardened steel 158/40: individually resettable 3-digit code
- Protection level: 4

Operation and use:

- To secure valuables/goods of medium value or at an average risk of theft
- Suitable to secure doors, gates, cupboards, lockers, tool boxes, cellar windows, sheds, switchboards, etc.

KEY SAFE TITANIUM

REF **125TA5080**

- Easy to use pushbutton combination
- Over 1000 possible combinations available
- Mounting hardware and protective cover included

HASP

REF **142TA7052**

Technology:

- Universal hasp with integrated Diskus padlock for doors and gates without rebate
- Ideal for use e.g. on double wing doors (transporters, box wagons)
- Easy to operate with one hand due to handy frontal cylinder access
- Solid metal locking case almost completely prevents successful attacks on the integrated padlock
- Extremely corrosion-resistant
- Fixing material (screws, drilling template and spacers up to 5 mm height leveling) and Diskus lock are included
- Available in black and white

- Width: 222 mm
- Depth: 87,3 mm
- Hole diameter: 13,4 mm
- Weight: 1270 g

SAFETY TRESTLE

REF **124TA2106**

- Min/max height: 1080/1300 mm
- Load capacity: 15 tonne
- Width: 550 mm
- Length: 1200 mm
- Weight: 72 kg
- Foldaway wheels, for easier movement
- Supporting beam made of durable oak
- 5 preset heights
- Weight is spread over the supporting beam
- Put the trestle under the trailer to prevent it from tipping

SAFETY JACK

REF **139TA1734**

- Min/max height: 1070/1350 mm
- Load capacity: 22,7 tonne
- Screw mechanism with removable handle
- With wheels for easy movement
- Put a jack under the trailer to prevent it from tipping

- Capacity: 17 tonne
- Length: 190 mm
- Height: 145 mm
- Width: 240 mm
- Weight: 3,7 kg

LOOSE WHEEL NUT INDICATORS

The loose wheel nut indicator is an easy-to-use and cost-effective product that provides immediate certainty if any of the wheel nuts have come loose, through a quick visual inspection.

Daily inspection

After installing the **loose wheel nut indicators**, the driver is advised to perform a daily visual inspection of his vehicle or trailer. These **loose wheel nut indicators** can also be installed during a “first-use” inspection of a new or different vehicle. They increase **safety**, **facilitate technical inspections** and **reduce wheel nut-related problems**. Fortunately wheel loss occurs only rarely. Loose wheel nuts however frequently cause damage to tyres, rims, hubs and wheel nuts.

Correct, wheel nuts are tightened

Incorrect, wheel nuts must be tightened

Sizes, range and colours

Loose wheel nut indicators are available in a range of sizes:

- Indicators for nearly 100% of all vehicles in use
- The standard colour fluorescent yellow is a stock item
